

K-LOVE serves our community in so many ways. Our city is filled with gangs and their related activities. I work with the youth at our church and have heard so many of them say how much their spirits are lifted when they hear K-LOVE on the radio. We also have very high unemployment in our city as well. Many times while I was unemployed, K-LOVE brought me out of my depression. I know that many of my friends who are now currently unemployed listen to K-LOVE as well to help them. If K-LOVE were to be displaced by an LPFM broadcaster who may not provide the same programming, it could be very detrimental to our community. There is so much going on in the world today that without K-LOVE the word of God may not be heard by many.
